

RENEWABLE ENERGY

PlanEnergy is a leading independent energy consultancy in Ireland and Northern Ireland. We are expert in advising Energy Utility, SME, Agriculture, Community and Public Sector clients on identifying and delivering energy efficiency and renewable energy projects.

PlanEnergy has been developing Wind, Solar and bioenergy projects for over 20 years. We have a proven track record of successfully working with developers and largescale utility providers of all project scales from single site to international portfolios. We are involved in these projects from origination through to commissioning, making sure that a high level of due diligence is undertaken in every aspect of the development process.
